These prices are for good, strong, substantial trees, shrubs., or plants with a good root system and true to name. It is not the light grade, poorly rooted, unreliable stock so much used in mail order and department store trade which is expensive at any price.

In order to be fair to the small purchaser as well as the large we give a single, ten and 100 rate. Five trees or plants of the same variety and size will be furnished at the 10 rate 25 will be furnished at the 100 rate. Less than 5 plants of one variety and size must be figured at the single rate, 25 of the same variety and size, or 50 of the same class as peach, apple, etc. will be furnished at the 100 rate, 250 at the thousand rates if quoted.

**TERMS**—Cash or satisfactory reference.

**PARCEL POST**—Most small parcels can be sent by mail cheaper than by express. Postage charges must be paid by the purchaser. Unless postage is included with order it will be send by Express.

**SHIPPING DIRECTIONS** — Always give full name and address and state how the shipment is to be sent. All small packages should be sent by express or mail and berry plants should never be sent by freight.

**LARGE ORDERS**—Special quotations will always be made on large orders. Write us stating the quantity desired and the probable varieties. We will duplicate any offer made by anyone, size and quality considered.

**IMPROVED HALE**—Similar to J. H. Hale, ripening at the same season, but a much stronger growing tree, more hardy and a far better bearer as it is self pollinating.

**ZARN**—One of our own introductions. Many large growers consider this the very best variety they have in their orchard. As large as Elberta, and better colored and far better quality. Sweet Cherry, grown on Mazzard root are far superior to those grown on the ordinary root. They transplant better, last longer and produce better.

### EVERGREENS

Specimen Trees, with roots Balled and Burlapped.

We cannot pack evergreens with roots balled and burlapped with earth for shipment by freight or express. It is too risky, heavy and expensive.

If desired we can ship them with bare roots packed in damp material successfully.

One large city in northern Ohio devotes one of its parks for a show of roses each year.

In 1950 they planted 700 of our roses and reported this year that every rose grew and bloomed profusely all summer. Never lost a single plant.

We have furnished their roses for the past six years.
